Fundraising Committee:	No report

President's Notes

Another great meeting Ending with The (FLYING) Bird's Mouth Vase demonstration , sorry if you missed it.

Congratulations to Jim Simoneau he has found a new home in Walhalla, SC.

The date's for the Ray Lanham demonstration have been set.

Gene Amaral is heading up the committee. This will be Saturday Sept. 21st at 9:30am to 3pm.

There will be lunch included. This is a pay to attend event, tickets will be available soon. Full details will be available at the June meeting. Save the date.

The classroom was used for the demo and most members felt it was much better than being in the cafeteria. We are continuing to improve and grow this room in the months to follow.

Keep in mind if you have tools no longer being used consider donating them to the club. Some day in the future this classroom will be a teaching tool for all of us as well as the students of Ocean State Academy. We now have 5 working lathes but only one set of

live centers and drive centers. We also could use 2 pen mandrels for the pen lathes.

Everyone should be getting emails from

oceanwoodturner@freelists.org if not go to our web site

oceanwoodturners.com click new member and click on step 4 for signup instructions. You can also pay you dues there as well.

Committee reports / We are looking for a membership committee to keep up with old and new member updates.

Facebook now has 120 followers and is getting new activity often. Please check it out and follow us if you use the app. Rick and Roland post updates in real time.

Do you need a Mentor? Many members are available just ask for help, it's your club privilege.

Demo's are always needed. Show us your technics and ideas. Demos do not always have to be a turning demo. Do you have unique jigs, finishing tips or segmenting tips we all want to know.

We have a Great Demo lined up you don't want to miss this one.....

Ocean Woodturners - May16, 2019
Show and Tell

Rick Bugbee

Tom Van Gyzen

Tom's Unique Oak and Walnut creation

Roland Lavoie

Mike Cotton

Ocean Woodturners - May16, 2019

Roland uses epoxy (progressive epoxy) from this company to create the magnificent finish on his bowl. He also dries his projects using a rotation motor from a barbecue stove. 4rpm for 12 hrs.

Welcome to the World of Epoxies
